

Accessibility to Existing Buildings Alterations Compliance Report

ORS, Section 447.241 (OSSC, Section 3411 and 305.7 IEBC) states that every project for renovation, alteration, or modification to affected buildings and related facilities that affects or could affect the usability of or access to an area containing a **primary function** shall be made to ensure that, to a maximum extent feasible, the paths of travel to an altered area and the rest rooms, telephones and drinking fountains serving the altered area are readily accessible and use by individuals with disabilities, unless such alterations are disproportionate to the overall alterations in terms of cost and scope. Disproportionate shall mean all monies expended that exceeds 25% of the value of the work under consideration. **See attached Statewide Code Interpretation 14-01.**

Items not included in the valuation of the primary function and exempt from the 25% proportion calculation; mechanical rooms, boiler rooms supply rooms, employee lounges or locker rooms, entrances, corridors, restrooms, windows, door hardware, electrical outlets, signs, removal or placement of ceiling and wall coverings finishes, re-roofing, and similar items.
