

INSTRUCTIONS FOR PRE-QUALIFICATION APPLICATION

FOR THE CITY OF MEDFORD

INTRODUCTORY STATEMENT:

In accordance with the statutes of the State of Oregon, every public contracting agency contemplating receiving bids for and awarding any contract for a public improvement may require any prospective bidder (herein referred to as applicant) to submit a full and complete statement concerning their equipment and experience in constructing public improvements.

The application and questionnaire forms which are bound herewith comply with the requirements of public contracting rules and must be used in determining the qualifications of applicants and in assigning limits as to the size and kinds of projects for which the applicant may submit bids.

The applicant should use care and integrity in preparing this information. The public contracting agency may make independent inquiries concerning the contractor's past performance and/or capabilities.

Manner of Preparing and Filling in Forms:

This application shall include equipment and experience information for only the specific single business organization or entity which is applying for prequalification and which would be the signatory on a contract with the public contracting agency.

All answers and other entries on the forms, except signatures, should be filled in on a typewriter or printed. To make this possible, the forms may be taken apart by removing the staples by which they are bound. It shall be the responsibility of the applicant to return all pages whether applicable or not. Failure to do so may be grounds for rejection.

All answers and entries shall be specific and complete in detail.

The prequalification application shall be signed by the applicant and sworn to as the form indicates. The signatory of the statement guarantees the truth and accuracy of all statements and of all answers to questions.

Use of Attachments:

Schedules, reports and other forms of prequalification statement may be used as attachments to the prescribed form, provided that the information contained therein specifically includes the information required by this form.

Place of Submission:

Prequalification applications shall be submitted to the designated officer of the public contracting agency.

Time of Submission:

Each Public Contracting Agency may have specific time requirements for filing applications. The applicant should check with the designated officer of the applicable agency for submission time.

Appeal Due to Denial or Revocation of Prequalification:

In case the applicant's application for prequalification is denied or in case an existing prequalification is revoked, the applicant may appeal the denial or revocation in accordance with the rules adopted by the Department of Administrative Services or the appropriate local contract review board.

Notification of Action Taken:

The applicant will be notified, in writing, of the action on their application. Applicant will then be allowed to bid on such projects as are within the limits of size and kind of work for which applicant has been declared qualified.

Period during which a Qualified Applicant Remains Qualified:

An applicant who has been notified of prequalification for projects of a given size and kind will usually remain qualified until the date specified in the notification. The public contracting agency may limit prequalification approval to individual public improvement projects. Unless such applicant is otherwise notified by the public body the applicant will be permitted to submit bids for any and all projects of said kind and size for which bids are to be received. The public body may from time to time require new or revised prequalification applications and have them approved prior to allowing a bid.

Requirement of Continuing Prequalification:

Applicants who have once been qualified with an agency requiring prequalification and who desire to maintain an uninterrupted prequalification standing are required to submit a new application periodically as required by such agency. Uninterrupted prequalification is contingent upon favorable action on the application. A prequalification may be revoked under the provision of ORS 279.029.

Changes:

Requests for revision of the prequalification standing of any applicant will be considered whenever the applicant can make a showing of materially improved ability, but not more often than once in three months. Major changes must be submitted with a new prequalification application. If the changes are minor, such changes may be requested to the public contracting agency. Minor changes involve, but are not limited to, company name, adding or deleting classes of work. Contact Public Contracting Agency for specific procedures when there are changes to the information submitted in the application.

With or without a request from a prequalified applicant, the prequalification limitation on class of work or size of project MAY be reviewed and increased or decreased as found appropriate. The prequalified applicant will be notified in writing of any such revision.

Joint Venture:

A public contracting agency may adopt special requirements concerning joint ventures. Before submitting a joint venture application, an applicant should ascertain if special instructions are applicable and obtain them from the designated public officer.

INSTRUCTIONS AND CHECKLIST FOR COMPLETING THE CITY OF MEDFORD PREQUALIFICATION APPLICATION
